PROFESSIONAL EXPERIENCE

Consultant, Product & Technology (CPO scope) | KoinBX, Madurai **Nov 2025 – Present**

Bootstrapped Indian crypto exchange, 8 years in operation. Brought in by the founders to own product and technology strategy, open new revenue lines and restructure the product and engineering organization.

- Own product and technology strategy and the company roadmap with the founders, centred on monetization, new business lines and scalable growth.
- Launched derivatives as a new business line: took crypto futures from strategy to market in August 2026 with a subscription-based membership pricing model.
- Restructured the product and engineering organization around business outcomes, with clear ownership, a leadership layer and a planning-to-release operating model. Adopted AI-assisted engineering, raising delivery throughput about 9× in four months.
- Made company decisions data-led: introduced a company scorecard, unit economics and funnel analytics that now guide founder priorities, pricing and roadmap investment.
- Led technology governance and risk: audited the full platform, retired legacy systems, and drove security and compliance hardening ahead of the futures launch.
- Opened a B2B revenue channel by defining a white-label and API offering, and its commercial model, for partner exchanges.

Co-Founder | AssetWorks AI, Bangalore **Mar 2025 – Present**

- Co-founded AssetWorks, an AI-powered financial analytics platform where users create investment widgets through natural-language queries.
- Built the full-stack SaaS product integrating Claude AI and OpenAI GPT, with a Rust backend and Flutter mobile apps.

SVP, Product & Technology | Cox & Kings, Bangalore **Oct 2024 – Mar 2025**

- Led the build of the first personalized customer experience in the company's travel-tech platform.
- Assembled a senior leadership team for product and technology; reviewed the budget and the long-term technology plan.
- Transitioned out when the business model changed from SaaS to franchise.

Product Lead | Captain Fresh, Bangalore **May 2021 – Oct 2024**

- Led overall product for Captain Fresh, a B2B seafood supply-chain platform, building the product and the product team from scratch.
- Shipped industry-first digital products for a century-old seafood supply chain, spanning sourcing, operations and customer-facing platforms.

- Shaped the long-term product roadmap with the leadership team.

Product Lead | CoinDCX, Mumbai **Aug 2019 – May 2021**

- Led overall product for CoinDCX, India's leading crypto exchange, across DCX Insta, DCX Trade, DCX Margin and DCX Futures on mobile app and desktop web.
- Built and managed a team of 3 product managers; took part in leadership and company-level decisions.

Product Manager | Hopscotch, Mumbai **Jul 2018 – Aug 2019**

- Owned demand-side and supply-side products for a kids' fashion e-commerce platform.
- Defined the long-term product roadmap; built internal tools for daily operations alongside user-facing products.

Senior Product Manager | BabyChakra, Mumbai **Jan 2017 – Jul 2018**

- Increased app user retention by 42% and stickiness by 21% within 8 months.
- Led a complete revamp of the web platform (mobile and desktop) for a better user experience.
- Launched a product marketplace on web and Android; managed the iOS app roadmap.

Product Manager | KleverKid, New Delhi **Jul 2015 – Oct 2016**

- Managed the full product lifecycle for web, Android and iOS: requirements, timelines, scalability and performance.
- Designed wireframes and product flows; led UI/UX for website and mobile apps and held the development team to deadlines.

Manager, Administration | Rhythms Academy, Bangalore **Jan 2013 – May 2015**

- Designed the architecture of a custom web app (CMIS) for admissions, attendance and fee management, delivered with an outsourced development partner.

Earlier: Short-term and contract product engagements with Docpulse Technologies and Finomena. Founded Smatrx Infosoft, a web app guiding school students (1 year).

EDUCATION

B.Tech, Chemical Engineering **2009 – 2013**

National Institute of Technology Karnataka (NITK), Surathkal

CERTIFICATIONS

- Coursera (verified): Product Management; Project Management; User Interface and User Experience Design
- Coursework: Human-Computer Interaction Design; User Experience Research

LEADERSHIP & ACTIVITIES

- Joint Secretary, Engineer 2012 (NITK annual technical festival): core organizing team; 5,000+ participants from 150+ colleges in 43 countries, with speakers from CERN, MIT Media Lab and Bell Labs.
- Coordinator, Students Activity Center, Incident 2013 (one of South India's largest cultural festivals).
- Creative Coordinator, Artists' Forum, NITK (2010 – 2013).
